DIVIDEND, JAN'Y 1, 1868,

FORTY PER CENT. UPON ALL POLICIES THAT have been in force four years, and payable on the anniversaries of the renewals of said policies.

This Company in declaring its Dividends, do so upon THE PERCENTAGE SYSTEM, thus each insurer, WHETHER HE IS A RICH MAN OR A POOR MAN, A PROMINENT CITIZEN OR AN HUMBLE CITIZEN, SHARES ALIKE.

PREMIUM SYSTEM.

CASH, WHEN REQUIRED. NOTES ARE, HOWEVER, TAKEN to accommodate the Insurer in paying his Premiums, thus showing the confidence of the Company in its ability to declare Dividends that will eventually CANCEL THE NOTES.

How different this is from a Cash Company who exact all Cash, under the plea that it is unsafe to grant this indulgence to a policy-holder, when he is unable to pay his renewal premium.

REMEMBER

That the "OLD MANHATTAN" never assumes or promises Extravagant Dividends to induce insurers to come and insure with them. Their Dividends in the past have always been equal to all well-managed and first-class Companies, and they can offer the records of the past as an evidence of the future. It never vilifies the character of other Companies to accumulate business. THE MANHATTAN'S oldest insurers are its best advocates. The business of the Company is conducted with

ECONOMY!

This is an evidence of careful management and a promise of Large Dividends in future.

From the following table, taken from the New York Insurance Reports of 1867, it will be seen that our percentage of expenses to receipts are very much less than any Companies enumerated below:

Expenses on each $100 of Receipts:

Manhattan Life	13.16
Guardian "	14.39
North America	15.44
Mutual Life	17.00
Continental	20.54
Germania	22.11

This Company insures upon all the most approved plans, AND AT THE SAME RATES CHARGED BY ALL FIRST-CLASS COMPANIES. APPLICANTS, before insuring, would do well to examine our Circulars, which can be had upon application either by mail or otherwise, to

From Warren's Diggings, Idaho.

LEWISTON, I. T., April 1, 1868.

EDITOR OREGONIAN:

Having just returned to this place from a winter's sojourn among the snow-mantled hills of Warren's Diggings, it has occurred to me that some acount of affairs in that northern latitude would be interesting to your readers.

WASHINGTON CITY,

Though not so large as the illustrious city from which it derives its proud name, nevertheless has a claim upon the public attention, being the point from which the denizens of that camp draw their supplies, and where they congregate betimes for business and pleasure generally. At present the population of Washington may not exceed fifty, but it is probably destined to rival some of the large mining cities of the coast. Heretofore during the summer seasons, the town has been quite lively, and from three to five hundred miners have summered in the camp; but it is anticipated that the coming spring and summer will witness a great rush of adventurers and a prosperity never before known. Washington is located near the base of a mountain and close by a stream called Meadow Creek. About half a mile above, is the site of the once projected city of Richmond, which in 1862 boasted of several houses; at present but one badly dilapidated building remains as a monument of former greatness.

HIC JACET MILL.

The erection of this mill in the dead of winter (everything considered) was a gigantic undertaking, but in the end has been successful. W. H. Farrar, in charge of the reduction works of the Pioneer mill, after the failure of the Company's engineer, took charge of the machinery, rebuilt the battery, and the mill is now in good running order and doing well. They have crushed in all 112 tons of ore—the last twelve tons being unassorted ore from the Scott ledge, and yielding $86 per ton. By this time they have probably crushed several tons from the W. B. Knott, and the yield, which promised to be large, will be known here in a few days. This mill is propelled by steam, and is located favorably among the gold bearing ledges of the camp, the nearest lead being the Hic Jacet.

PIONEER MILL.

This mill, the first one built in Warren's, owned by Messrs. Williams & Maxwell, is run by water power, and can be operated all the year round. Capt. Williams, the original designer and workman of this mill, has proven his competency as a complete and thorough engineer and mechanic. The Pioneer mill was put up as a mere test of quartz, and the company now being fully satisfied with the result, intend putting in ten five hundred pound stamps early in the Spring, in addition to what they now have, together with pans and concentrators. The present battery is a five stamp one, manufactured in San Francisco. This company are now prepared for the reduction of silver ores, having just finished a large reverbratory furnace, together with the barrels, amalgamators, pans and concentrators. During the coldest part of the winter, a ditch was brought from Warren's creek, one and a half miles distant from the mill, thus securing a never failing supply of water. The Pioneer mill re-commenced operations on the 20th ult., having on hand about fifty tons of float rock from the Washington ledges.

LEDGES.

At present the Winfield Scott is the favorite ledge of the camp, having yielded nearly $290 per ton free gold, as worked by the Pioneer Mill; it is also rich in sulphurets of silver. The Scott was discovered about a year ago by Wm. Taylor. It is about two feet wide in the discovery claim. Three companies are now engaged in taking out quartz from this lead.

The W. B. Knott is conveniently located to the Hic Jacet mill, and is about five feet wide, but not well defined. A thirty foot shaft has been sunk on this ledge and about one hundred and fifty tons of ore taken out. Very nearly one hundred tons of rock have been taken out of the Hic Jacet ledge and worked, the yield of which has been satisfactory.

Messrs. Hanna & Co. have extracted about seventy-five tons of rock from the Sampson ledge. They have recently had thirty-six tons of decomposed ore crushed, which was unassorted, and obtained about thirty dollars per ton. They are satisfied their rock will pay, and so have put on a day and night shift. This company has run a tunnel one hundred and fifty-feet, and are sinking a shaft. The ledge is about twenty inches wide, well defined and rich in sulphurets of silver and free gold.

A shaft is being sunk upon the Washington ledge by the Pioneer Mill Co. They have found the ledge three feet wide and well defined.

Several new quartz ledges have recently been discovered and recorded, some of which are estimated to be very rich, and parties are continually out prospecting for more. Altogether about one hundred ledges have been discovered in Warren's camp.

CINNABAR.

I learn that rich specimens of cinnabar have recently been found in the sluice boxes of Messrs. Pollock & Co. at Miller's camp, twenty miles from Washington, and that parties intend prospecting for it this spring.

FIRE CLAY

Of a good quality, suitable for furnace and building purposes, has been discovered in camp.

WARM SPRINGS.

This favorite resort is twenty miles this side of Washington. The water of these springs is said to be composed of sulphur, iron, soda cream tartar, lime and alcohol. As to its medicinal qualities, they are claimed to be wonderful; in that frail humanity may find a sovereign remedy and cure for all diseases of the flesh by merely bathing in its limpid waters. A fine swimming pond is attached to the springs. In addition to the above, I am informed that soda and salt springs, both hot and cold, have been found in Warren's district; if so, they will be of great value in the future. The salt springs, especially, will be regarded in that camp as an invaluable discovery, owing to the immense cost of salt necessary in the reduction of ores.

PAYETTE LAKES—FISHERY.

These lakes are about forty miles from Washington. One of them is about twelve miles long and contains great quantities of trout and other fish. The scenery surrounding the lakes is grand and game is abundant. The contemplated road from Boise to Washington (if built), will pass here, and in the future this point may become one of much importance. Of the fish species, large numbers of what the Indians call red fish, are found. Messrs. Combs & Co. deserve great credit for the energy they have displayed in establishing a fishery. Last summer they sold two thousand dollars worth. These fish have never been found anywhere except in that district.

NEW PLACER MINES

Were discovered last fall, on the east fork of Salmon river, about fifty miles from Washington, by Messrs. Jules & Co. They are said to have prospected well. Several parties interested are going there this spring.

MISCELLANEOUS.

The country around Warren's is well watered and timbered. The winters in that section are generally long and severe. The past winter, however, has been the mildest ever known. The average depth of snow during the winter was about three feet, and the coldest weather, which lasted only two or three weeks, was about 32° below zero.

At present the only mode of transportation for goods to Warren's is by pack trains; but citizens of that camp are talking of building a wagon road from Lewiston via Slate Creek. Other parties contemplate building one from Kooster, at the mouth of Powder river, via Payette.

One enterprise worthy of notice is the new wire suspension bridge spanning Salmon river, forty-five miles this side of Washington. It is two hundred feet long, and was built last year by Messrs. Hunt & Woodward. It is a fine structure, and a source of curiosity to travelers, who do not expect such conveniences in that out of the way country.

In anticipation of a rivalry and growing importance, the Hic Jacet mill and adjacent buildings have been christened Rushville. Of course its future growth and existence will depend upon the result of the quartz mania in Warren's diggings. Yours truly,   ROLAND.

GREAT GRAND CYCLOPS, G. C. T.

DEMOCRACY.—A New York Democratic magazine, called the *Old Guard*, and a text-book for every Copperhead in the country, endorses the resort to cowardly assassination of men who may be elected in opposition to them. In the last number of this treasonable publication is a page containing only two lines, one at the top and one in the middle. The line at the top of the page reads: "A Message from God to Usurpers and Dictators," and the line in the middle of the page reads: "See Judges, Chapter III—verses 16-22." By reading the chapter referred to, the natural supposition is that Andrew Johnson should be the victim for the dagger, for he is a ... usurper, and has publicly bloted at dictatorship, preparatory to the assumption of it, ... away. But this is not the reference intended by this rebel publication, as it no doubt approves the cowardly act of Wilkes Booth, though it would condemn a similar act on Johnson. Republicans are not such dastardly miscreants as to resort to assassination. In days past, when a man's life was endangered by avowing his principles in some sections, no instances of such cowardly revenge by Republicans is or can be recorded. The pro-slavery Democrats have all been more or less inclined to browbeat and mob Republicans yet they could travel through the strongest Republican sections, and express their sentiments without the least fear of mob violence. It was this arrogant domineering of pro-slavery Democrats that brought on the war, which the liberty loving people are not afraid to renew if again forced upon them.

MODEL STYLE.—Here is what the La Crosse *Democrat* says of Gen. Grant. We commend it to the Oregon "Democratic" organs as a model of the style which their party most delight in:

"Grant is a Methodist by trade, a tyrant by instinct, a drunkard by nature, and a bigoted Know Nothing by descent; according to the drivelling account published by that dilapidated patch of old boot leather, the paternal Grant, the remote ancestors of Ulysses were of the *Mayflower* convicts. U. S. Grant has left no stone unturned to secure his election to the Presidency. A convicted liar, on the testimony of five members of the Cabinet and the President of the United States; a drunkard from the testimony of all officers who knew him from Whisky Sheridan to Tecumseh Sherman; a foul Puritan by the testimony of his emasculated daddy and the tenor of his military orders—his election would be an outrage on decency far greater than the election of the defunct clown who clung to the office like grim death to a sick nigger, until the breath left his angular carcass."

DON'T LIKE THEIR PLATFORM.—The Jacksonville *Sentinel* has the following:

"Well," said a Democrat in judicial position in this county, to one of his country brethren a few days since, "How do you like the platform?"

"Darn such a platform," responded the unwashed—"there's no nigger in it and mighty little of anything else."

"Oh," explained the Judge, "the nigger is included in that resolution about the servile races!"

"Well, if you're going to give us nigger," responded the high private, "why in thunder don't you give him straight as we always took him; whenever you have to hash up the only real plank in our platform and mix it with something else, it's a sign the Democratic stomach is getting mighty weak! and the nigger plank suits us common Democrats first-rate without any whitewash on it."

When last heard from, the Judge was ejaculating, "the fellow is right—they must have nigger!"

THE WHISKY FRAUDS.—The report of the Retrenchment Committee on the whiskey frauds is a startling document, which will make a sensation throughout the country. The report lays bare with unsparing fidelity the extent of those frauds, the mode in which they are perpetrated, the complicity of the revenue officers with the swindlers, and the culpable conduct of the President in appointing corrupt officials and refusing to remove or suspend them when their guilt has been pointed out to him. The irresistible deduction to be drawn from the President's behavior is, that he is the "head-centre" of the whisky rings; and that he has aided and abetted the perpetration of frauds upon the revenue to the amount of one hundred millions per annum. And while this does not constitute a count against him in the impeachment indictment, it will cause every honest man still more strongly to desire his speedy removal.—*Chicago Tribune*, March 14.

The New York correspondent of the Philadelphia *Ledger*, in a letter dated March 6th, says:

"The Pendleton men here are beginning to talk pretty plainly to Mr. Belmont and his friends in Wall street. They say that the feeling at the West just now is Pendleton or nobody. They think, too, that Mr. Belmont has too deep and direct a personal interest in the management of the business of the foreign bondholders, to be a safe manager in-chief of the Democratic National Committee at this crisis. An effort, therefore, will be made to induce him to resign; but, as there is another powerful interest at work within the party to keep him just where he is, to resist the financial vagaries of the Western Democracy, it remains to be seen what will come of it."

Browning, who is Secretary of the Interior, has been appointed Attorney General *ad interim*, while Stanbery is defending the usurper. This appointment must have shocked the delicate nerves of the Assistant Attorney General, Binkley. It was his by precedent and priority, and if slavish subserviency to "me and my policy" could entitle him to promotion, he had fully earned it. Poor ill-used Binkley! ungrateful Johnson! In the meantime, Browning will fill two seats in the Cabinet and vote double. Lucky Browning! you have not bent the supple hinges of the knee for nothing. But if your master should get his walking papers, what a pile of official honors you must lay down.—*Chicago Tribune*.

A writer in the New York *Evening Post* traces the great destitution in that city to the following causes:

1. Trades' unions, by which thousands are induced to dissipate and throw away their opportunities for accumulation.
2. Intemperance—not the quantity but the quality of the spirits used.
3. Politics, by which ten thousand men habitually live by the means acquired by doing the dirty work of politicians.
4. The system of charities, which tend to perpetuate and encourage idleness and vagrancy.

DEMOCRATIC IDEA OF SUNDAY.—The Assembly has passed a bill closing on Sundays all such immoral and disreputable places as stores, warehouses, mechanics' shops, banking houses, manufacturing establishments, etc., and permitting all such moral and elevating places as theatres, grog-shops, cigar stores, bowling alleys, gambling saloons, &c., to be open. The Assembly should repeal the ten Commandments and ...—*Marysville (Cal.) Appeal.*

HE DON'T SMOKE.—In the *Atlantic Monthly* for Feb., there is a very able article against the use of tobacco, from the pen of Parton. He says he smoked thirty years, and has now abandoned the habit. He advises every smoker to follow his example. No; Parton don't smoke. He has stopped. He had a good reason for it. Will anybody else marry a Fanny Fern? So says the Stockton *Independent*.

A Few Facts Furnished to an Anxious Inquirer

It is difficult to say whether J. S. Smith has taken lessons in falsehood from Beriah Brown, or whether Beriah Brown has taken lessons of a like kind from J. S. Smith. One thing, however, is certain. They tell falsehoods in concert, and it is difficult to say which is ahead. We have already examined Smith's declaration that every Democratic Governor aided in putting down the rebellion, and now Brown comes with the following kindred assertion:

"We assert as an indisputable fact, that as much as Democrats deprecated the war, and as firmly as they believed it was unnecessary, no obstacle or embarrassment was offered to its prosecution but by the partisan legislation and party exactions of the radicals, and we challenge the production of a single fact to disprove this assertion."

We make it a point whenever we "go after" the editor of the *Herald* to present the case against him in such a manner that he never finds it convenient to reply, and shall do that same thing on this occasion.

Did Geo. H. Pendleton, a Democratic member of Congress, and afterwards the Democratic candidate for Vice President of the United States, "offer no obstacle or embarrassment" to the prosecution of the war when he said in Congress in 1861:

"I beg you gentlemen, if you find conciliation impossible, let the seceding States depart in peace; let them establish their government and empire, and work out their destiny according to the wisdom which God has given them."

Did Alexander Long, a Democratic member of Congress, "offer no obstacle or embarrassment" to the prosecution of the war when he said to the House of Representatives in 1864:

"Can the Union be restored by war? I answer most unhesitatingly and deliberately no, never; war is final, eternal separation. My first and highest ground of opposition to its prosecution is that is wrong; it is in violation of the Constitution and the fundamental principles on which the Federal Union was founded."

Did Joseph Lane, a Democratic Senator from Oregon, "offer no obstacle or embarrassment" to the prosecution of the war when he said in the Senate of the United States, in 1861:

The people of Oregon will not be ready to imbrue their hands for a godless cause in fraternal gore. I am able when my country needs my services to offer them, and I shall be the first to do it on any just occasion; but never against one of the States of this Union who has left it because [illegible] has been denied to her.

Did George K. Shiel, a Democratic member of Congress from Oregon, "offer no obstacle or embarrassment" to the prosecution of the war when on the 18th of December, 1862, he refused to vote for the army appropriation bill, and when on the 2d of February, 1863, he voted *against* the supplementary appropriation bill for supplying the army?

Did this same George K. Shiel "offer no obstacle or embarrassment" to the prosecution of the war when on the 2d of February, 1863, he voted *against* the employment of negro soldiers in the field to fight against their rebel masters? For the verification of these matters see *Congressional Globe*, Part I, third session of the 37th Congress.

Did John Whiteaker, Democratic Governor of Oregon, "offer no obstacle or embarrassment" to the prosecution of the war when, in his message of 1862, he claimed his right to offer a "stern opposition" to the war policy, and declared that it was "contrary to all reason to apply such a remedy in a Government like ours?"

Did Horatio Seymour, the Democratic Governor of New York, "offer no obstacle or embarrassment" to the prosecution of the war when he [illegible] the mob in the city of New York and promised them "to have the draft suspended and stopped"; when he addressed a long letter to the President demanding that the draft be suspended in the midst of the great campaign of 1863, at a time when the country was in the greatest peril and needed every man to beat back the rebel armies; when he insisted that the conscription act was unconstitutional and demanded that its [illegible] be postponed until a decision could be had from the Supreme Court,—a proceeding which would have left the country at the mercy of armed rebels who wasted no time in paltering with the Courts, but drove every able bodied man they could [illegible] to their ranks, very much as a butcher drives bullocks into a slaughter pen? Was no "obstacle or embarrassment" offered to the [illegible] of the war by this conduct on the part of the Democratic Governor of the Empire State, at the greatest crisis of the struggle?

Did Beriah Magoffin (Beriah seems to be the natural name of a traitor) the Democratic Governor of Kentucky, "offer no obstacle or embarrassment" to the prosecution of the war when he replied to the President's call for soldiers with the declaration that "Kentucky would furnish no troops for the wicked purpose of subduing the sister Southern States?"

Did the Democratic Convention of California in 1861, "offer no obstacle or embarrassment" to the prosecution of the war when it declared that rather than continue the war it was "in favor of the recognition of the independence of the Southern Confederacy?"

Did the Democratic National Convention of 1864 "offer no obstacle or embarrassment" to the prosecution of the war when it pronounced the war a "failure" and demanded that "immediate efforts be made for a cessation of hostilities?"

And finally, did Beriah Brown, now editor of the *Oregon Herald*, and formerly editor of the *San Francisco Press*, "offer no obstacle or embarrassment" to the prosecution of the war when on the 28th of June, 1864, he said in the *Press*:

"We do most emphatically deny the right of the Government to coerce the obedience of sovereign States?"

Has the said Beriah Brown any more "indisputable facts" to assert, and does he challenge "the production" of anything more to disprove them? There is one thing, and one only, for which the public would take his word, viz: Let him confess that he is a deliberate falsifier, and that he never tells the truth if he knows it. He will have no need to "challenge proof" to establish this confession.

The troubles at Owyhee between rival claimants of mining property continue. In addition to the killed and injured whose names we have already published, we learn that Marion Moore has been killed and two other men wounded. On the 2d inst. Gov. Ballard issued another address to the people of Owyhee, advising them of his power to enforce order and his intention to use it in case of further demonstrations. The Owyhee *Avalanche* hopes that "there is intelligence and humanity enough in the community to prevent further bloodshed."

The *Sentinel* observes that the Copperhead papers are commencing to ridicule General Grant as the "black and tan" candidate. They probably have reference to his having used "blacks" to "tan" the hides of the Southern Democracy, and the allusion is rather infelicitous than otherwise.

Democratic Idea of the Political Situation

In all parts of the country there are large numbers of men who have no political ideas whatever except those of animosity and hostility to the negro. It is needless to observe that this class of men are those who most persistently vote the Democratic ticket. They have no knowledge worth the name of the principles of our Government; they know little or nothing of any political system, and never take the trouble to gain any information to guide them to rational and correct political action. As their whole stock of political ideas consists in hatred of the negro, so when they come to vote their sole consideration, their only idea, is that they are voting to keep the "nigger" down. No other thought is for a moment entertained. Every argument that can be presented to them upon the principles of Government and touching the great questions which have for years been, and are still, in issue goes for nothing, and the inquiry at once comes back to the imaginary subject of "negro equality." It has been so for years, and will continue so while ignorance prevails and demagogues are able to work upon the prejudices of those whose suffrages they claim. If this element, whose only political idea is based on hatred of the negro, and whose political action is guided by the belief that there is a struggle for the ascendency between themselves and the negro race, and that their only hope is to vote in a way which political charlatans tell them will keep the negro down, if this element were eliminated from the Democratic party, it would no longer be formidable as an organization. But these demagogues are always at work. It is a fortunate circumstance, however, that the material which they can work upon is constantly diminishing. They said that if we emancipated the slaves we should have negro equality and a servile war, and on every issue of the last thirty years they have never failed to hold up this matter in one way or another as a terror to the people. But not one of their prophecies has been fulfilled, nor ever will be. The negro was made free, and "negro equality" did not follow; he was endowed with civil rights, and no such result occurred; in some parts of the country he has recently been given the ballot, and in many of the States he has always possessed it, yet this great bugbear is as distant as ever. Humiliating to common intelligence as this outcry about "negro equality" is, there are men who lay claim to learning and judgment who keep it up continually. What will such men as Rev. J. S. Smith do when they find negroes in the kingdom of heaven—granting that they ever get there themselves?

A Great Speech.

The speech of Mr. Applegate last evening at the Court House was a very great performance. He even "outdid himself" in the use of his power of argument, of combination, analysis and of felicity of illustration. His effort was well sustained to the end, and was listened to throughout with unabated interest by an audience whose numbers are rarely equaled by assemblages in his city on any occasion whatever. It is no discredit to other able men to say that no speech of equal power has been delivered in Portland for years past. For a clear and forcible delineation of political issues, for convincing argument sustained by the undoubted facts of history and for a scorching exposure of the past record and inevitable tendencies of so called Democracy, the speech may challenge comparison with any to which our citizens have ever listened.

The Sacramento *Union* says that "Johnson's response to the charges against him is the school boyish one that he did not do anything, and if he did, he didn't mean it. It is, indeed, well ascertained now that his singular course with reference to Stanton was taken without advice and perhaps upon some drunken impulse."

There are three legal tender cases now before the Supreme Court of the United States. One is from Oregon, one from California and one from Nevada. Secretary McCulloch asks that these cases be postponed for the present, as the Attorney General wants more time to prepare for the important conflict.

Ben. Wade in the Senate.

Mr. Wade has exerted more influence upon the legislation of Congress within the last seven or eight years than any other man in the Senate or House. This fact cannot be accounted for on the score of talents or abilities, for he has neither, except in a very moderate degree. He cannot argue a question and never tries. He snorts and prances up and down the Senate Chamber, and calls that a speech. So it is from him, and an effective one; but from any body else it would have no influence whatever. I have known him to turn the scale in favor of his side of a proposition in a ten minutes rant, after Sumner and Trumbull had spent a whole day in vain pleadings and orations. There is some sort of magnetism about the old fellow that attracts men of his party to himself and his views just as it repels his opponents from both. He has more dogged perseverance than any other man in Congress; will stick to a measure longer, and call it up oftener, after it has been fairly killed outright, than any other man in the Senate. There is no such thing as discouragement possible to him. It only makes him prance higher and rant louder. During Mr. Lincoln's administration, a friend went to him one day to secure his influence for an appointment. He went to work immediately to procure signatures for the application, and having obtained half a dozen and added his own, he handed the paper to the anxious office hunter. "Take that," said old Ben; I guess that'll do. If not, just come and let me know, and I'll go up to Old Abe and swear it right through his head." It is unnecessary to add that the gentleman got the desired office.

This sketch is already longer than I intended it should be, or I might give a few illustrations of old Ben's social life and manners. As it is, one must suffice; He boards at the Washington House, a most humble and unpretentious hostelry near the Capitol, and lives up near the roof, for the special purpose of avoiding callers. It was thought he would be "at home" to friends and the public on New Year's day, and his accommodating landlord asked if he should not put his room in order for receiving company. "Oh, no" said Ben., "I don't want any of their infernal visiting. I'm going to lock myself in all day, and if anybody comes I won't be at home. Tell them I've gone out." And so he did—did not make a call nor receive one.—*Washington cor. N. Y. Tribune.*

The Sorrows of the Menken.—The Menken is in trouble. She is only mortal, therefore could not keep out of debt. She has made scores of fortunes and squandered them away. It cannot be that Adah pays for the champagne suppers of her admirers, and yet it looks very much like it, since she is embarrassed so often. By the way, pecuniary embarrassment is the only kind of embarrassment to which she is subject. It appears that she very much desired to play the prince in the streets of London, as she played it on the stage, so she ordered a splendid coach which she did not pay for, and went to court. The carriage is described as a magnificent one. A London paper says: "It had handsome curtains, lamps chased and mounted with horses rampant; the panels were bordered, and the wheels picked out with gold foliage, there were bands with white and gilding round the felloes of the wheels, the door handles were richly chased, and on the panels were placed Miss Menken's monogram and crest, the latter a horse rampant. There were cigar pockets. Round the roof were handsome chased ornaments and foliage, and a rampant horse at each corner. The nails to the wheels were silver plated, and everything else corresponded. The harness was elaborately mounted, the crest silver embossed, four sets of bells were ordered—two for each horse—one set of silver for the daytime, and another of commoner metal for the night." What a pity that the Menken should not be allowed to air her queenly form in this regal equipage! Who would have imagined that a London tradesman would refuse credit to the divine Adah! We very much fear that the admirers of the voluptuous star of the naked drama love wisely but not too well. When the Menken is in funds they are full of ardor, but when her bank account is nearly exhausted they grow suddenly wise, and their attachment cools in proportion to the extent that wisdom is practiced. Since her English friends have deserted her, the Menken should hunt up her truant lovers on this side of the Atlantic. Surely they will not forget their favorite because she is poor in purse, if not in body.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

DATES TO APRIL 9.

Congressional.

WASHINGTON, April 8.—In the Senate Trumbull called up the bill relating to the qualification of jurors. It provides that the expression of an opinion founded on public rumor or statement in a newspaper should not disqualify a man otherwise competent.

Johnson supposed the law already allowed the court some discretion in accepting such jurors.

Trumbull replied that it was so in some States, and the object of this law was to make the practice uniform. After debate by Bayard, Davis, Frelinghuysen and others the bill passed by 37 to 8.

Sumner introduced a joint resolution proposing an amendment to the Constitution. It provides that no person who has been President or Vice President, who has served as President, shall afterwards be eligible to either office. Referred to Committee on Judiciary.

The Senate then proceeded to the consideration of private reports from the Committee on Claims, and afterwards went into Executive session and soon after adjourned.

In the House the Senate amendments to the naval appropriation bill were referred.

Washburne, of Illinois, offered a resolution of inquiry in relation to mortgage held by the United States on the Collins steamship line.

Robinson, (Dem.) of New York, offered as a privileged question a resolution rescinding the resolution of the impeachment proceedings, amendatory or supplementary thereof and recalling the managers. The Speaker decided the resolution not privileged, there being pending a motion as to the printing of 4,500 copies of Butler's opening speech. Adjourned.

Assassination in Canada.

OTTAWA, CANADA, April 7.—At half past two o'clock this morning, T. Darcy McGee was shot dead by an unknown assassin. He had just left the Parliament house, and was entering the door of his lodgings. The ball passed through McGee's head and lodged in the door. The body was found on the pavement soon after. The assassin is supposed to be a Fenian.

OTTAWA, CANADA, April 8.—Two men named Whelan and Doyle have been arrested on suspicion of complicity in the murder of McGee. The suspicion against them is very strong.

This morning a night watchman in the Parliament buildings named Dent, shot himself dead.

The funeral services in honor of McGee were performed in the Catholic cathedral this morning. His remains were then forwarded to Montreal, by special train attended by members of Parliament, and other distinguished men.

Dispatches from the provinces express the deepest indignation at the murder, which is generally attributed to the Fenians. The family will be amply provided for by the Government.

Indian Affairs.

OMAHA, April 8.—A dispatch says that a reliable letter from Fort Laramie says that Indian agents and contractors are suppressing authentic reports of Indian affairs, and doing everything they can to prevent the true state of things from being made public. The letter then proceeds to detail a number of outrages committed during the last week in March, between Fort Fetterman and Fort Laramie.

Political Intelligence.

RICHMOND, April 9.—The Convention defeated the resolution prohibiting the Legislature from establishing separate schools for the two races, by a vote of 57 to 21.

The Republican State Executive Committee has decided to call a Convention to nominate State officers on the first Monday in May.

Connecticut Election.

HARTFORD, April 8.—The corrected returns fix English's majority at 1,735. Total vote, 99,934.

Miscellaneous.

OTTAWA, April 8.—The case against Whelan deepens as the inquest proceeds. The Crown reckon confidently on his being the man. A revolver was found in his possession, one chamber having evidently recently been discharged. The bullet is exactly the same as that which killed McGee. Several others have been arrested as accomplices.

CHICAGO, April 9.—The billiard match for the Championship last night, between McDevitt and Foster was decided to have been won by McDevitt, Foster having become dissatisfied with the decision of the referee allowing a count for McDevitt and refused to play the game out. The score stood McDevitt, 1,268. Foster, 1,262.

ALBANY, April 9.—The strike of the Central Railroad workmen has ended. Torrence, the Vice President of the road, having agreed to advance their pay.

BY ATLANTIC CABLE.

LONDON, April 8.—It is said Cranbourn has offered the government of Canada to the Earl Mayo, and that of India to Lord Fitzgerald.

The Justices of the court of appeals of Ireland resign the Irish heirarchy, and will soon petition to the Queen in person against any change in the church creed.

The Grand Jury has brought in bills of indictment against all the prisoners except O'Neill, charged by the Coroner's Jury with complicity in the Clerkenwell outrage.

All doubts of the safety of Dr. Livingstone are now dispelled. Sir Roderick Murchison to-day received a letter from the distinguished traveler, which came via Zanzibar. Dr. Livingstone writes that he is in good health and that his journey and explorations have been successful and he will soon return to England.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, April 9.—Governor Stanford, Judge Crocker and other Directors of the Western Pacific railroad went to Oakland to-day for the purpose of selecting a site for the depots, wharves, etc., for the use of the railroad under the recent arrangements with Carpentier and the city of Oakland.

Work will be commenced on the wharf at Saucelito, intended for the use of the Humboldt Bay and San Francisco R. R. Co., on Monday next.

Last night two Italians, Antonio Flores and Angelo Feres, met at the corner of Stockton and Pacific streets, and exchanged eight shots without hitting one another, or any outsider.

Sanguinetre, who was shot by Peterson yesterday, is reported better to-day. Peterson has been admitted to $5,000 bail.

A reward of $250 has been offered for the arrest of Schlincke, the absconding real estate broker.

The steamship *Guiding Star* sailed from New York on the 7th, with 500 passengers to Greytown, and 800 tons freight to Aspinwall. She will sail from the latter place to Panama and this port.

The Fenians have arranged for a grand pic nic to be held at Belmont, May 10th.

DOORS AND BLINDS.—The largest factory for doors and blinds on the Pacific coast is situated in El Dorado county, twenty five miles from Placerville. This factory was established in May, 1865, by Wilson & Bro., of San Francisco. This factory cuts up into doors and blinds one million feet of sugar pine lumber yearly. This lumber is prepared before used the same as the Eastern manufacturers do; as it comes from the saw-mill it is run into a pond of water, and there remains until the pitch and sap comes out; it is then taken out and stuck up until dry, and then put into steam kilns, where it remains until thoroughly dry. It is then taken and cut up into doors and blinds. The capacity of this factory is 400 doors and 100 pair of blinds per day. The recent invention in machinery by H. O. Hooper, the manufacturer in this factory, enables him to turn out double the work this year as heretofore with the same expense. This factory commenced operations about the first of May and closes up (on account of snow and rain) about December first. The doors and blinds are hauled by mule teams to Shingle Springs, and then by railroad and steamboat to San Francisco. The State of Nevada is supplied with doors from this factory.

This factory turned out 22,000 doors last year, and will increase the number to 40,000 this year. The importation of doors from the East for four years up to 1865, was about 55,000 on the average yearly. The importation of doors from the East has nearly stopped. At the present price at the East with a low freight doors could be shipped to Boston from San Francisco and sold at a profit.—*Alta.*

The Southern Oregon papers say the prospect of having an abundant harvest this summer in that section is more flattering than it has been at any previous time at this season of the year.

Appointments for the Campaign.

HON. D. LOGAN and HON. J. S. SMITH, the Union and Democratic candidates for Congress, will address the people as follows. Speaking to commence each day at 1 o'clock:

Yamhill County

LAFAYETTE, April 4, 1868.

EDITOR OREGONIAN:

At the Union Precinct Convention held at West Chehalem, Yamhill county, on Saturday, April 4, 1868, the Union voters formed themselves into a "Union Club" for the purpose of strengthening the Union Republican party. The following named gentlemen were chosen as officers: N. Westfall, President; Isaac Rogers, Vice President; M. F. Spencer, Secretary.

Yamhill will give the Democratic nominees leave to stay at home again, to *import* a few more voters and arrange things for the election of 1870. True, 'twill be hard for a ticket to stand defeat, at the head of which stands the "*loyal*" and "gentlemanly" Mr. Burch, but they have stood it, and doubtless can stand it again.

SIGMA.

The Speakers at Oregon City.

OREGON CITY, April 8, 1868.

EDITOR OREGONIAN:

Hon. David Logan and J. S. Smith spoke here yesterday. The Union party were well pleased with Logan and the "Cops" are low spirited after the way he used up Rev. Joseph. Logan will get more votes in this county than any other man that could have been nominated by the Union party. This county is sure for from one hundred and fifty to two hundred majority for Logan.

NEW STORE—NEW GOODS.—The undersigned would respectfully call the attention of the ladies of Portland to their new and complete stock of goods, selected with special reference to the Portland trade. Our motto is one price, and no goods misrepresented to effect sales.
CLARKE, HENDERSON & COOK.

FIRST NATIONAL BANK OF IDAHO—BOISE CITY, I. T.—Organized March 11th 1867, (with circulation) under Act of Congress, approved June 3d, 1864. Authorized capital $500,000. Paid up capital $100,000. B. M. DuRell, President. C. W. Moore, Cashier. Collections of Notes and Accounts in the principal places of Idaho Territory promptly attended to. Exchange for Coin or Currency on this Bank can be purchased of Ladd & Tilton, Portland, Oregon.

THE STEAMER JOHN L. STEPHENS not last but has arrived at Portland, and brought to KOHN & FISHEL, the largest and best assortment of Gentlemen's Spring and Summer Suits, the latest style, and of the best material that has been offered in this city for years. The Ladies have not been forgotten. They will find by an inspection of the stock just arrived, that their wants have been anticipated by a selection of dry goods, the equal of which is not often presented here.

[illegible] —Our report, yesterday morning of the Council mentioned a report on Accounts and Current Expenses to the city printing. In order that the tax may see upon what grounds the Committee Council have acted in the matter, we publish the document:

To the Honorable Mayor and Common Council of the City of Portland

Your Committee on Accounts and Current expenses who authorized to advertise for proposals from the *Oregonian* and *Herald* offices to do the public printing, beg to report, as follows:

Your Committee in accordance with the resolution March 4, 1868 have notified several offices of our city to receive proposals from the OREGONIAN and other offices, which are annexed hereto.

The resolution authorizing your Committee to receive such proposals, was passed during the absence of a majority of your Committee and in their opinion should not have been passed. If the printing ought to be let to the lowest bidder, all the newspapers should have been included in the resolution, and every office ought to have an opportunity to put in a bid for the printing in order to have all the competition possible. The resolution does not give your Committee any authority to receive the bid from the *Bulletin* office, as the said office was not included in said resolution.

Your Committee are opposed altogether to the principle of letting the public printing to the lowest bidder. This policy has been tried very frequently in different cities and has always been found to work to the disadvantage of the public. As a general thing some obscure newspaper has offered to do the work for a smaller consideration than one of any repute and circulation could afford to do the work, and in consequence thereof the money is [illegible] thrown away.

Your Committee deem it the duty of the City Council to have the public printing done in a newspaper of good circulation, which will perform the work in a satisfactory manner, and pay for such work a fair and liberal price. The same proposition was up in the California Legislature this year and was defeated by a large majority.

The following remarks of the San Francisco *Call* an [illegible] newspaper, in relation to this matter appear to your Committee to be so pertinent that your Committee deem it proper to present them to your body. It is [illegible]:

"[illegible] ADVERTISING —Mr. Mixner, of the Senate, has [illegible] a bill providing for giving all the official advertising to the lowest bidders. Why not, asks the *Call*, not give all official positions to those who will agree to fill them for the least amount of money? The cost of advertising is just as much a legitimate portion of the [illegible] expense as is the pay of officials. There is just as much sense in giving out the tax collecting, assessing, etc., of the public to the lowest bidder, as there is in giving out the public printing to those who will agree to do it for the least pay. The true policy to pursue in relation both to printing and officers is, to fix the [illegible] to be paid each at a reasonable rate, and then select for the different positions and duties those best [illegible] of filling the one and performing the other. Let us have everything adjusted upon a reasonable basis, or [illegible] everything off, from the office of Governor [illegible] of Constable."

The Herald Publishing Company have done the city printing during the past year in a manner which must be [illegible] to every member of the City Council and the [illegible] for such printing is fair and reasonable, and [illegible] than the city has paid in former years for such work. Your Committee therefore, would respectfully [illegible] that the ordinance now pending, giving said [illegible] Herald Publishing Company the contract to perform the work for another year, at the same rates, be [illegible] by the Common Council. Respectfully submitted

O. S. FECHHEIMER,
A C RIPLEY,
Com on Accounts and Current Expenses

[illegible] will no doubt look upon the above reason [illegible] third, fourth and fifth paragraphs—as a joke [illegible] have some very good reasons for believing that [illegible] gentlemen were in dead earnest. Taking this [illegible] we submit the following facts to show the [illegible] how the Retrenchers (?) of the Council have [illegible] them during the last year of over $500 in order to [illegible] the Herald, and how they have provided to rob them [illegible] for the same purpose. Last year the OREGON[IAN] offered to do the printing at half the rates paid the [illegible]. The Council refused to accept the offer [illegible] the printing to the *Herald* at the rates paid the [illegible] year. For the printing of the last year the [illegible] received $1,070. The OREGONIAN, upon its [illegible] would have done the same for just half, or $535. [illegible] of last month, the Council authorized the [illegible] to receive bids from the OREGONIAN and *Herald* [illegible] printing the ensuing year. In response to that [illegible] was offered the following bid:

[illegible] work—1st insertion, per square	50
[illegible] not exceeding 5 days	12½
[illegible] exceeding 5 days	10
[illegible] days insertion, per square	$1 50
[illegible] work—1st insertion per square	75
[illegible] not exceeding 5 days	12½
[illegible] exceeding 5 days	10
[illegible] per square	$1 50

[illegible] offered the following bid:

[illegible] work, per square, 1st insertion	25
[illegible] additional, not exceeding 5 days	20
[illegible] 10 days	10
[illegible] figure work double price	

The *Herald* offered no bid, so far as we can learn. The [illegible] saw the light after they went into the Com[illegible] the Council, on Wednesday night, [illegible] an ordinance giving the *Herald* the printing at [illegible] following rates:

[illegible] work—1st insertion, per square	$1 00
[illegible] additional, not exceeding 5 days	25
[illegible] insertion, per square	2 50
[illegible] work—1st insertion per square	1 50
[illegible] not exceeding 5 days	25
[illegible] days insertion, per square	3 00

[illegible] it will be seen that two responsible newspapers [illegible] to do the printing for about half what the re[illegible] have engaged to pay the *Herald*. Will the [illegible] this in the light of retrenchment, or rath[illegible]?

[illegible] AT WALLULA.—A Wallula corres[pondent] of the Walla Walla *Statesman* represents business [illegible] lively at Wallula. The town is jammed full [illegible] grain for Portland, San Francisco and the [illegible]. The correspondent says "The steamers *Owyhee* [illegible] are doing their level best to bring up all a kind [illegible] we require, and also to relieve us of our surplus [illegible]. The steamer *Owyhee* arrived at about [illegible] and left at five this morning. The [illegible] left at three o'clock this afternoon carry[ing] [illegible] tons of flour and grain. The town is full of [illegible] flour and grain. Within the last twen[ty] [illegible] the following pack-trains have left this [illegible] and Boise: Perry Kent, 75 packs; Jo [illegible] McGraw, 48; [illegible] Madigan 62; Frank [illegible]; John Bell 40; Johnny Smith, (old train) 30 [illegible] 40; Small train, 18. There are [illegible] following pack trains preparing [illegible] and getting ready for an early start: [illegible] Dave Frazer, 40 [illegible], Walter Clark 38 [illegible] Alt, [illegible] Johnny Hern 40 [illegible] Bodier, 40 packs; Tom Riddum, 50 [illegible] Benson, 60 packs, Andrew McNeally [illegible] Haley, 32 packs; Charley Harter 38 [illegible] 32 packs [illegible] 32 packs [illegible] 58 packs. [illegible] other trains here that I don't know the [illegible] will average 300 more animals. I [illegible] there are three trains on the way up from [illegible] will be here tonight. I [illegible] give the [illegible] of packs. You can see by the above, that times [illegible] lively here. * * * The [illegible] and Captain Stump, of the steamer [illegible] informs me that if the river continues to raise he [illegible] to take about 75 tons of flour and grain each [illegible] of flour and grain will be [illegible] all the surplus products of the Walla Walla [illegible] market. That is just what the valley wants.

[illegible] —We had a few minutes conversation [illegible] with Mr. John Creighton, a gentleman whose [illegible] has made him quite familiar with the country [illegible]. He expresses the opinion that, [illegible] can be no doubt of the richness of the gulches [illegible] and Willow creeks, there will be little gold [illegible] present season for the reason that there [illegible] be a sufficient supply of water. The mining re[gion is] high, and generally destitute of water except [illegible] from the snow banks of the mountain ridges [illegible] there is but little snow, and the supply from [illegible] will be, therefore small and of short dura[tion]. [illegible] which successful mining can be done till the [illegible] a good ditch shall be completed, and Mr. C [illegible] unlikely that it will be finished before late [illegible]. It is proposed to bring water by this ditch [illegible] and to do that, it is necessary to dig a [illegible] ninety miles in length in order to get fall [illegible] to cross the divide between Burnt River and the [illegible] and Willow creeks. The divide is [illegible] less than 2,000 feet in height. There are [illegible] men in those mines for the supply of [illegible] from the snow banks and most of them will be [illegible] met with disappointment this season. Consid[erable] [illegible] of men of Eastern Oregon have gone in [illegible] taken claims and have made laws which [illegible] to hold over without working them, till the [illegible] shall be completed. It is not yet certain that it [illegible] this season and the camps mentioned [illegible] expected to pay very largely this year.

QUEER HELP WANTED.—We heard a pretty good story the other day, where an honest faced Hoosier went into a fancy store in Cincinnati in search of a situation. The clerk was sitting in the counting-room, with his feet elevated, and contemplating life through the softening influence of cigar smoke. Our Hoosier friend addressed him as follows:

"Do you want to hire any man about your establishment?"

The clerk looked indifferently but seeing his customer, concluded to have a little fun out of him, so he answered very briskly, at the same time pulling out a large and costly handkerchief and wiped his nose on it:

"Yes, sir. What sort of a situation do you wish for?"

"Well I am not particular. I am out of work, and almost anything will do me for a while."

"Yes, I can give you a situation, if it will suit you."

"What is it? What's to be done and what do you give?"

"Well, I want a hand to chew rags into paper, and if you are willing to go in, you may begin at once."

"Good as wheat! Hand over your rags."

"Here, take this handkerchief, and commence with it."

The Hoosier saw the "sell" and quietly putting the handkerchief into his pocket, walked out remarking:

"When I get this chewed, stranger, I'll fetch it back."

The First Hebrew Benevolent Society will hold their Annual Meeting for Election of Officers Sunday, April 12th, at half past one o'clock P. M. at the Turn Verein Hall. Members are particularly requested to attend.

HOSTETTER'S
CELEBRATED STOMACH BITTERS!
A Pure and Powerful Tonic,
Corrective and Alterative, of wonderful efficacy in Diseases of the
STOMACH, LIVER AND BOWELS.
PROTECTIVE PROPERTIES.
Prevents Fever and Ague and Billious Remittent Fevers; Fortifies the System against Miasma and the evil effects of unwholesome water, invigorates the organs of digestion and the bowels,
Steadies the Nerves and tends to Prolong Life.
REMEDIAL PROPERTIES.
Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or
PRODUCED BY SPECIAL CAUSES.
NOTHING THAT IS NOT WHOLESOME, GENIAL and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element; no fiery excitant, but is a combination of the extracts of rare balsamic herbs and plants with the purest and mildest of all diffusive stimulants.
The weak stomach is rapidly invigorated, and the appetite restored by this Tonic, and hence it works wonders in cases of Dyspepsia, and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.
Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is conclusive, and from both sexes.
As a Genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from old age it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.
Last but not least it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and stomachics of the day.
SOLD EVERYWHERE.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some [illegible], and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers the very [illegible] though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

Facts for the People about Gas

Through want of knowledge of some simple [illegible] with the management of gas much dissatisfaction annoyance and useless expense may and but too often does obtain unfortunately because gas fitters to whom the consumers look for aid are often unaware of the various contingencies which occur in the introducing and burning of gas

It is a common occurrence for consumers to complain of the excessive cost and deficiency of light To the inaccuracy of the meter they generally attribute the first, and to the poor quality of gas the latter condition is usually charged when in reality the fault will generally be found to rest with the consumers themselves through their own ignorance and mismanagement

Whenever light is obtained from gas at a greater cost than necessary it is just as much a loss as to permit any other valuable commodity to run to [illegible] And a proper knowledge of the conditions that cause unnecessary loss will place in our hands the means requisite to avoid and prevent it

BURNERS

The [illegible] part connected with the consumption of gas whereby the best results are obtained in the quality of light and economy of gas, of more importance than the burners

It would be difficult to convince the majority of gas consumers, who have not given the subject attention, how remarkably the light derived from gas [illegible] by improperly constructed burners or where the pressure or the flames are unsuitably adjusted. Owing to these circumstances, the amount of gas consumed is disproportionate to the light obtained and the account of the consumer is much increased In fact, there is no exaggeration in stating that a large proportion of the [illegible] through their own mismanagement pay twice as much as there is any occasion for considering the amount of light obtained, all of which could be saved by using a proper burner and a correct adjustment and control of the pressure

The most important requisites for good burners are that the orifices where the gas issues should be perfectly regular in size and of a proper size to permit it to issue with a very low pressure And these conditions should be adhered to what ever the kind of burner may be, whether the argand, bats-wing, fish-tail or single jet, etc

If the orifices are too small a high pressure is required to expel the gas, and the light is diminished just in proportion to the increased pressure [illegible] the flame will have a bluish tinge, and the lower part will be of a deep blue color, giving but little light in proportion to the gas consumed As an example, an argand of fifteen holes passing five feet of gas at 1 10th pressure, yielding a light of 12 candles will, if the orifices are reduced, to pass the same amount of [illegible] only give the light [illegible] a loss of 20 per cent Hence we see that the light to be obtained from a given quantity and quality of gas is entirely dependent on the burner employed This demonstrates the [illegible] of using proper burners, and shows [illegible] by negligence on this point, the consumer may find his gas bills increase, in what appears to him a very mysterious manner

[illegible] OF FLAMES

It is a mistake to suppose that the amount of light obtained will be in proportion to the quantity of gas issuing from a burner There is a particular point in the consumption of any class of burner where the maximum of light is derived, and any deviation from this entails loss

As an example, if an argand burner consumes five feet per hour, giving the light of 12 candles be reduced so that only three-fourths of that quantity is burned, then the light instead of being equal to nine candles the theoretical proportion, will be six candles only, being a positive loss of 36 per cent. This reduction may be continued with even greater proportionate losses A [illegible] or fish tail burner will give a maximum of light in proportion to the gas consumed compared with any less sized burner, and it will be found in practice the larger sized burners are the [illegible]

[illegible] sized giving as high as 200 to 300 per cent advantage in light as compared with the [illegible]

[illegible] example, a bat-wing burner consuming [illegible] gives the light of two and a [illegible] only, while a burner consuming seven and one-half feet per hour gives the light of twenty two candles, the pressure being uniformly [illegible]

[illegible] of these facts is of importance to the [illegible] who may, in his endeavor to [illegible] directly opposite to his [illegible] It is more economical to have one good large gas light than several small ones

Anecdote of a Printer.—The following are sketches illustrative of the character of the late Mr. Swaine, the Philadelphia publisher

A [illegible] dealer met him one day in the street

"Mr S [illegible]" said he, "I have some excellent [illegible] of the *Ledger* Do you wish to buy ?"

"Yes, sir," was the reply

"What [illegible] willing to give for it?" was the next inquiry

"Precisely [illegible] it, sir, neither more nor less," [illegible]

"Oh [illegible] Mr. S., what can [illegible]"

[illegible] don't."

[illegible] man's goods If you [illegible] your own paper, you [illegible] it. If you do [illegible] time and your own idle [illegible] the adv [illegible] Tell me [illegible] you, may find [illegible]

A [illegible] who, in ad vertising [illegible] for a poor widow with [illegible] children. "How much for the [illegible]" said he [illegible] said Mr. S , "business is [illegible] sir, charity is another question" "But [illegible] widow, sir I every dollar saved is [illegible] moment to her family" "Business is business, I repeat sir. What I choose to give in charity is my own private affair My [illegible] has nothing to do with it" "Then you [illegible]" "That's best, sir." The [illegible] paid the bill very reluctantly, amounting to, perhaps, $2, and was going out of the office [illegible] severely in his own mind upon the parsimony of Mr Swaine, when the latter stopped him. "Do you know this widow, is she honest and deserving ?" "She is, sir." Mr S [illegible] into the gentleman's hand, and turning on his heel, walked away, saying "business is [illegible]"

[illegible] of this little instrument [illegible] been derived from "thumb-[illegible] first thimble, and afterwards [illegible] invention, and was brought [illegible] about the year 1695, by John Lofting, who commenced its manufacture at Islington, [illegible] with great profit and [illegible] Formerly iron and brass were used, but [illegible] steel, silver and gold have taken their places In the ordinary manufacture thin plates of metal are introduced into a die, and then [illegible] In Paris gold thimbles are manufactured to a considerable extent. Thin [illegible] cut into discs of about two inches diameter These being heated red hot, are struck with a punch into a number of holes gradually increasing in depth to give them the proper shape. The thimble is then trimmed polished and indented around its outer surface with a number of little holes, by means of a small wheel It is then converted into steel by the cementation process, tempered, scoured and brought to a blue color A thin sheet of gold is then introduced into the interior, and fastened to the steel by means of a polished steel mandril Gold leaf is then applied to the outside, and attached to it by pressure, the edges being fastened in a small [illegible] made to receive them. The thimble is then ready for use. Those made in this manner do not wear out, as so many ordinary gold thimbles do, but will last for years The gold coating [illegible], may be easily replaced, but the steel is of an [illegible] quality, and very durable

A Remarkable Story —During the year 1864, when the hostile forces were struggling for the [illegible] in and around Winchester, Mr —— went to Major Parsons, United States Provost-Marshal, and applied for a safeguard Gen Fessenden was called upon to fill the demand, which he did by detailing for this duty Mr John W., of the Second New York Cavalry to whom he issued imperative orders to remain until he was relieved by proper authority W stood manfully to his post. The tide of battle surged about him, but his was a charmed life, for he had an authority which saved him from molestation by the "rebs" The war closed but with it came no order to relieve him, and faithful to the trust confided to him, he is still at his post of duty !—*Winchester (Va) Times*

Intermittent Oratory —An eminent English lawyer recently spoke for two hours before a Vice Chancellor The person who reported the speech also recorded that the Judge interrupted the lawyer 113 times during the speech a most once a minute

The New York *Times* thinks that the Pendleton [illegible] policy is more in the interest of peace than any other that could be adopted as after adopting it we could negotiate no loan for any purpose whatever

Government Printing Office

From the Washington *Chronicle* we take the following interesting description of the Washington Government Printing Office in which our readers will find an account of the mammoth printing press and its wonderful performance

The Government Printing Office situated on the corner of H and North Capitol streets is one of the largest printing offices in the country Its dimensions are 300 by 50 feet and it is plentifully supplied on all sides with windows looking not unlike a Northern cotton mill The building is four stories in height and on the first floor is the press room and drying room second floor the composing room third floor the bindery and in the fourth the folding room On the second floor over two hundred hands are employed and the cleanliness and neat appearance of not only the composing room but every room in the building is especially noticeable, from the fact that printing offices are not always the neatest workshops In this room the immense number of department reports and the work for both houses are put in type Here the President's message and all other confidential work is "set up," requiring the utmost [illegible] to be exercised in keeping it from the gaze of the public that which is strictly private until the proper time arrives for its publication All confidential matter comes first to the Superintendent, by whom it is transferred under pledge to the foreman of the composing room, who does not allow the copy to leave his sight As many hands as are [illegible] are at once put to work upon it, and are not allowed to leave the room until the job is done, the type distributed, and all proofs, slips, etc , destroyed The printed matter, with the "copy," is then returned to the superintendent by the foreman The number of copies ordered are then forwarded under seal to the proper person, and the office has nothing to show that such a document exists The business of the office in all its various departments is necessarily carried on in a business-like manner and yet the work done will compare favorably with any work of the kind in the country More copies are turned out yearly at this office than any half dozen printing establishments in the country, and 200 000 copies of the agricultural report for 1860 with its 632 pages including 38 full pages of illustrations, engraved on wood and numerous small engravings of agricultural machinery, etc and the volume bound in cloth, were turned out at a cost of but eighty four cents per copy the book being as well executed as ordinary books by private publishers The compositors receive $4 per day of eight hours, or sixty cents per thousand on 'piece work, and all employes are paid monthly

The bindery occupies the entire third floor where 100 males and a large number of females are busily employed There are in this room embossing machines, a smashing machine, cutting machines, ruling and backing machines, standing presses, etc , including all the necessary machinery for the binding and delivery of books On the fourth floor there are eleven perfect folding machines, which are principally attended by females A stereotyping establishment is connected with the office, where all matter requiring more than 20,000 copies is stereotyped There is also attached to the office a complete machine shop, with all the necessary appliances The two engines of the office are 45 and 15 horse-power, respectively The press room presents the busiest scene having twenty five Adams presses, six Hoe single cylinder presses, and a number of others, numbering in all fifty-two One of the newly invented Bullock presses has recently been placed in this room, and is certainly the most wonderful pieces of mechanism in the "art preservative of all arts that has yet been produced It has run more consecutive hours than any press known In less than four months at eight hours a day, and with the labor of two pressmen and an assistant, it printed eight millions of distinct impressions without any effort to crowd its capacity, and in a given time, it did the work of twenty Adams presses and thirty five hands The paper to feed this wonderful press comes from the mill in rolls, containing thousands of sheets which it cuts in proper size The paper in going through this press is printed on both sides at once, (which no other press does) the number of sheets is counted and deposited on the delivery board at the rate of 8,000 to 14 000 per hour, or counting both sides at the rate of 16,000 to 28,000 impressions The press is cheaper, less cumbersome, simpler, dispenses with the labor of from ten to twenty hands requires less power, saves the expense of "feeding" time of counting, &c , and has other advantages too numerous to mention The establishment presents as many objects of real interest to visitors as many of our public buildings and is [illegible] well worth a visit

A Bank Incident —A few days since a rather tough app aring man from the remote interior, walked into the Granite Bank, in this city, and inquired

"Is this Mr Johnson, the Cashier ?"

"It is, sir ; what will you have ?"

"Do you pay any of your old bank bills now ?"

"Certainly "

"Well, now, that is good You see I had some of your bills, and the other day I offered them at the Sandy River Bank, and they didn't want them, but said that you would take them , so here they are."

The Cashier counted the bills, about $100 He then inquired, "How long have you had those bills ?"

"It's about six years "

"How came you to keep them so long ?"

"Well, you see, I had only one child, a girl 15½ years old, and she died, and then I didn't care about the money, and put it away in an old box, and there it has been "

The lamp came to his throat and the tears streamed down his furrowed and bronzed cheeks, as he turned aside, in memory of his child, for whom the money had been saved —*Kennebec Journal*.

UNION COUNTY CONVENTION.

A Union Convention for Multnomah county will be held at the Court House, in the city of Portland on Saturday, April 25th 1868, commencing at the hour of ten o clock in the forenoon of that day, for the purpose of nominating four Representatives in the State Legislature and County officers for said county

All voters in the several Precincts in the said county who endorse the platform adopted by the Union State Convention and who are willing to aid the Union Republican party by their support, are requested to meet at their respective places of voting on the 18th day of April 1868 to select delegates to attend said County Convention—based upon the Union vote for Governor at the June election, A D., 1866 at the rate of one delegate for every twenty votes, and one for each fraction over one-half. TURBINE WATER WHEEL!

OF WHICH THE ABOVE IS AN ILLUSTRATION has FOUR SETS OF BUCKETS, AND USES THREE-FOURTHS OF THE WATER TWICE.

The old high priced, unequalled and unrivalled wheel has been PLAYED OUT by a fair working trial made by Mr H Kelly at his saw mill, and the public can see what he says as to the capacity of the two wheels in the following testimonial over his own signature

Mr H W. Shipley—Sir : In reply to your inquiry as to how I like your Pacific Turbine Wheel I have to say that I have used one over shot and three Leffel wheels —10 13 and 15 inch diameter When I substituted your 16 inch wheel for the 13 inch Leffel wheel, though unfinished it worked the machinery [illegible] using 52 ft of water per minute more than the 13 inch Leffel At your request I subsequently took your wheel out that it might be finished and then I put in a 15 inch Leffel but it gave no better power than yours while it used 52 cubic feet more water per minute After some months I replaced your wheel and am still using it with the most satisfactory results I have subjected it to some severe tests For instance while running the circular saw in a log which measured 15 inches I add the planer with a 9 inch knife cutting from one eighth to one fifth of an inch depth without in the least slacking the speed After thorough tests of both wheels, I am satisfied that your wheel with gates one-eighth of an inch open gives as much power as the Leffel with gates one third open At half gate your wheel gives double the power of the Leffel at half gate At full gate the power of yours exceeds that of the Leffel, by from ten to twelve per cent At quarter gate, the Leffel holds no comparison with yours at quarter gate.

N B Mr Shipley was not present at either of the trials of his wheel he being sick at the first and absent from the State at the second trial

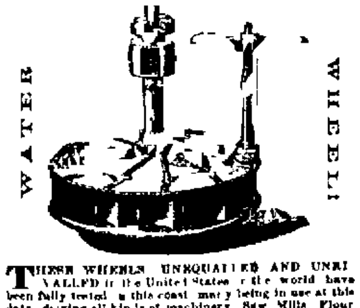
AMERICAN DOUBLE TURBINE



THESE WHEELS UNEQUALLED AND UNRIVALLED in the United States or the world have been fully tested in this coast many being in use at this date driving all kinds of machinery Saw Mills Flour Mills Quartz Mills, Woolen Factories &c &c
☞ The following is from the Springfield Republic

Trial of Water Wheels.

Messrs Jonathan Child and John A McCreight who are about establishing mills and factories at Harper's Ferry Va wished to procure water wheels and desiring to make a choice of Springfield Wheels, procured a trial between the Leffel Double Turbine and the Welch and Burns Wheel The following report of the Committee shows the result of the trial

Springfield O Oct 11 1867

This is to certify that on the 9th and 10th days of October, 1867 in company with Mr Staley Civil Engineer of Mechanicsburg carefully measured the amount of water used in the test between the 40 inch Leffel Turbine and the 30 inch Welch & Burns Water wheels made by Bechtle Blakesley & Baker made at Wenner's mill near West Milton Miami Co O The contract requiring the tests to be made with ½ gates and ¾ gates with the same amount of water for each wheel The amount of grinding was superintended by Mr Charles Morgan, who will report the results.

The amount of water used in the tests, as measured by myself and Mr Staley is as follows

	C ft per min
At ½ gate the Leffel Wheel used	88 224
Welch & Burns used	88 224
At ¾ gate the Leffel Wheel used	11[illegible] 523
Welch & Burns used	11[illegible] 523

The grinding was continued for one hour each test
WILLIAM BROWN,
Civil Engineer
S S STALEY

Having been chosen by both parties to determine the amount of grain ground by each of the above mentioned wheels, the result was as follows

The Leffel Wheel at ½ gate ground	256	lbs
The Welch & Burns at ½ gate ground	56½	lbs
The Leffel Wheel at ¾ gate ground	411½	lbs
The Welch & Burns at ¾ gate ground	192	lbs

Medical.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES
Dr Gibbon's Dispensary,

616 KEARNEY STREET NEAR COMMERCIAL, San Francisco Established in 1854, for the treatment of Sexual and Seminal Diseases such as Gonorrhea, Gleet, Stricture Syphilis in all its forms Seminal Weakness, Impotency etc Skin Diseases (of years standing) and Ulcerated Legs [illegible] fully treated

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering out a miserable existence from the effects of secret indulgence or [illegible] absorbed into the system Look at their pallid, [illegible] and disfigured faces and their broken down [illegible] disqualifying them for the happiness of [illegible] or the enjoyment of life In this horrid [illegible] thousands suffer until death closes the scene [illegible] guardians friends attend to those who are suffering any of these horrible life-destroying maladies [illegible] they are cured free and cured before it be too late [illegible] them immediately to Doctor Gibbon a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs It is important to those who are afflicted or to those who are interested in the welfare of their friends to be careful of the [illegible] pretended doctors who infest all cities publishing their skill in curing all diseases in a few days imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry or you may fall into the hands of [illegible] charlatans

Seminal Weakness.

Seminal Emissions the consequence of self [illegible] solitary vice or depraved sexual indulgence is [illegible] by the youth of both sexes to an almost unlimited [illegible] producing with unerring certainty the following train of morbid symptoms unless combatted by scientific medical measures via Sallow countenance dark spots [illegible] the eyes pain in the head ringing in the ears, a noise like the rustling of leaves and rattling of chariots [illegible] about the loins, weakness of the limbs, confused [illegible] blunted intellect loss of confidence diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society loss of memory, hot flushes, pimples and various eruptions about the face, fur ed tongue fetid breath coughs consumption, night sweats monomania and frequent insanity If relief be not obtained should apply immediately either in person or by letter and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by any of the San Francisco quacks

MARRIED MEN,

Or those who contemplate marriage who are suffering under any of these fearful maladies should not [illegible] the sacred responsibility resting upon them nor delay to obtain immediate relief

DOCTOR GIBBON is responsible, and will give to each patient a written instrument binding himself to [illegible] radical and permanent cure or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr Gibbon, stating case, symptoms length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity to any part of the country with full and plain directions for use, for Ten Dollars, sent in a [illegible] letter or through Wells, Fargo & Co

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who with bogus sworn to certificates, dupe the [illegible] Some of the self styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco and other places are tradesmen, and being too lazy to work at their trades Some are tinsmiths, [illegible] makers newspaper carriers intelligence office [illegible] etc Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid [illegible] t on is to make enquiry—it will cost you nothing, and may save you many regrets; for as advertising physicians, in eight cases out of ten, are bogus there is no safety in trusting any of them until you know who and what they are Dr Gibbon does not deceive [illegible] by exhibiting bogus titles, certificates, protests [illegible] letters, etc. Dr Gibbon will satisfy [illegible] who may call at his office of his ability to treat [illegible] he proposes to cure.
